**Codejock selected as a finalist for 15th Annual Jolt Awards**

OWOSSO, Michigan, January 13, 2005 – Codejock Software, a division of Codejock Technologies, LLC, a leading provider of reusable software components for Visual Studio .NET®, is proud to announce that Xtreme Toolkit Professional Edition v9.5 was selected as a finalist for the 15th Annual Jolt Product Excellence and Productivity Awards in the Libraries, Frameworks and Components category.

**About Xtreme Toolkit Professional Edition**

Xtreme Toolkit Professional Edition for Visual C++ provides Windows developers with a sophisticated set of components that give applications a professional, modern appearance. Xtreme Toolkit Professional Edition allows you to quickly create fully customizable menus and toolbars which you then can apply one of several predefined themes such as Office 2003 or Visual Studio .NET.

The Xtreme Toolkit Professional Edition contains a full set of professional grade components that include OneNote style tabs for easy navigation and grouping multiple document windows, Visual Studio 2005 "Whidbey" style docking and nested grouping that make organizing your application's desktop effortless and include many custom visual styles such as Visio and Office 2003.

When workspace utilization is important, sliding auto-hide windows, nested grouping, and pinnable floating auto-hide panes can efficiently organize your application's workspace. Xtreme Toolkit Pro's property grid control provides a quick and efficient way to display and retrieve information to and from the user. XtremeToolkit Pro makes application localization quick and painless permitting you to support up to 32 different languages including Right-to-Left (RTL) languages. Additionally, Xtreme Toolkit Pro provides many more great controls to aid in your development. For more information on Xtreme Toolkit Professional Edition visit [www.codejock.com/products/toolkitpro/](http://www.codejock.com/products/toolkitpro/).

**About Software Development Magazine's 2005 Jolt Awards**

For the past 14 years, Software Development Jolt Product Excellence and Productivity Awards have been presented annually to products that have "jolted" the industry with their significance and made the task of creating software faster, easier and more efficient. Jolt cola, the fabled soft drink quaffed by software developers for sustenance during development project marathons, sponsors the awards presentation.

This year's awards ceremony will take place on March 16 at the Santa Clara Convention Center during SD West 2005, which attracts more than 3,000 software developers, renowned industry speakers and press annually. Winners will also be featured in the June issue of Software Development magazine. One Jolt Award and three Productivity Awards are presented for each category. Jolt Product Excellence Award winners receive a coveted trophy—a can of Jolt cola encased in Lucite. More information on the Jolt Product Excellence and Productivity Awards is available at [www.sdmagazine.com](http://www.sdmagazine.com).

**About Codejock Software**

Codejock Software is a division of Codejock Technologies, LLC, based in Owosso, Michigan. The company provides thousands of corporate customers worldwide with reusable software components for Visual C++ and Visual Studio .NET® development platforms that facilitate rapid Graphical User Interface (GUI) development.
